Project Name	HDI Predictor (Human Development Index Prediction Using Machine Learning)
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

I am a Government policymaker trying to predict the Human Development Index (HDI) of a country, but calculating HDI manually using multiple indicators is difficult and time-consuming because I need quick and accurate predictions for planning and decision-making, which makes me feel confident about making better development policies.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A government policymaker	Predict the Human Development Index (HDI) of a country	Calculating HDI manually is time-consuming and requires multiple indicators	I need quick and accurate predictions for planning and decision-making	Confident about making better development policies
